PROJECT SPOTLIGHT: Award-Winning Design

We're excited to spotlight our recent Parade of Homes collaboration in the NY Capital region, where the home earned **Best Overall House** and **Best Primary Suite** honors. Led by Kaitlynn Johnson, Director of Interior Design, our Design Studio curated interiors that balance effortless luxury with warmth and livability.

Universal Furniture played a key role in bringing that vision to life. With soft silhouettes, warm wood finishes, and refined feminine details, these timeless pieces beautifully complement the home's architecture. Featured in both the award-winning primary suite and guest bedroom, we've highlighted a few of our favorite selections that we hope will inspire your next project.

Resort-Inspired Living

This season, our Design Studio is embracing Relaxed Resort Living, a style inspired by boutique hotels, coastal escapes, and effortless everyday luxury. Four Seasons Furniture captures this look through timeless design and craftsmanship, with the McMichael and Daniel collections featuring soft silhouettes, coordinating accents, and calming neutral palettes.

Why We Love It

We love Four Seasons Furniture for its ability to blend enduring style with everyday livability. The brand's thoughtful design philosophy shines through in collections like McMichael and Daniel, offering pieces that feel relaxed, refined, and ready for real life.

- Handcrafted American quality
- Hundreds of fabric options
- Configurable seating
- Washable slipcovers
