Why We're Seeing Homeowners Return to Hardwood

At Wright at Home, we've helped many families find the right flooring for their homes. While options like luxury vinyl plank and laminate have grown in popularity, we're seeing more homeowners gravitate back to the timeless beauty of hardwood.

There's a reason wood floors never go out of style. They're durable, easy to clean and can last 50 to 100 years with proper care. Hardwood also brings a warm, classic look to a home and is a great option for allergy-conscious households because it doesn't trap dust, pollen, pet hair and other allergens like carpet can.

Today's hardwood is also more innovative than ever. We're seeing everything from pet-friendly finishes and water-resistant construction to a wide range of colors, textures and patterns that make it easier to find a floor that fits both your lifestyle and your personal style.

One option we're especially excited about is engineered hardwood. It offers the elevated look of real wood with added stability and resistance to warping, making it a beautiful and practical choice for busy homes.

Choosing new flooring is a big decision, and we're here to make it easier.

At Wright at Home, we offer complimentary in-home flooring consultations, professional installation and flexible financing, along with engineered hardwood from trusted brands including Mohawk, Mannington, Mercier and Anderson Tuftex.

If you're ready to give your home a fresh look, hardwood might be the perfect place to start.
